7. Proposal for consideration: Alston Moor Parish Council is in full support of the statement published by Save Alston Moor's Services, the community group which includes the whole emergency response team of EMTs and CFRs and other residents. We agree that NWAS must:
 - provide an ambulance vehicle, and support a crew made up of CFRs, ECFRs and EMTs
 - enable blue light working to alert other road users and make an accident scene safe, even if specialist training to allow driving that contravenes the Highway Code is not provided
 - permit transportation of patients whenever safe to do so, either because specialist medication is not required, or a paramedic is available to manage such medication

- enable members of the emergency response team to progress from CFR to ECFR to EMT through training designed for our context and available to those who work
 - create a proper payment system for those trained to Level 4 (EMT)
 - make paramedics available on Alston Moor as far as possible, by enabling them to undertake administration days at The Bungalow at the hospital, while being on call for ambulance callouts, thus allowing for administration of specialist medication where required during the transport of a patient to the Cumberland Infirmary.
